

Coleg Morgannwg is working in a collaborative partnership with the University of Glamorgan, to provide training opportunities for employees looking for courses leading into Higher Education (HE) at the University, and for those wishing to enter part-time HE directly. The aim is to increase participation in HE on the part of the Welsh workforce and thereby enhance the skills base contributing to greater business success and competitiveness. Coleg Morgannwg will liaise with employers and their staff to inform and develop part-time study options in these areas in the following ways.

a) Hardship Bursary

Coleg Morgannwg part time HE students will be offered the chance to apply for a bursary that will help them meet some of the costs associated with part time study, e.g. books, equipment, travel costs, childcare. The bursary may help those people who also have to alter working hours etc to study to improve their career prospects.

b) Employer liaison

The college seeks to liaise with employers and to raise their staff's awareness of the HE opportunities available at Coleg Morgannwg and the University of Glamorgan, and progression opportunities available with the University.

Courses that provide routes into HE at Coleg Morgannwg are listed inside.
